

DIGITAL ZOMBIES & VIRTUAL CHE

Energizing history & the
humanities with digital
tools & methods

Dr. Juliette Levy, Associate Professor of History, University of
California, Riverside.

300-student lower division history surveys rank at the bottom of “best experience lists” for professors and students alike. Juliette Levy started ten years ago to cobble together tools and teams to drive learning outcomes and make the experience of the large lecture more satisfying for everyone. In this talk, she will share lessons from the inspiration behind the learning game Digital Zombies, the development of Virtual Che – a VR learning module, and her experiences using and developing digital platforms to loop back into her scholarship.

MARCH 5, 2019

4:30 – 6:00 PM

Massachusetts Institute of Technology

Building E51 – Room 095

Corner of Amherst and Wadsworth Street Cambridge, MA

This event is part of the MIT Digital History Seminar sponsored by the History Faculty.
